NEUROSCIENCE AND BEHAVIORAL PHYSIOLOGY

Volume 25, Numbers 1-6, 1995

Engl.

Volume 25, Number 1, January-February, 1995

Influence of Norepinephrine, Acetylcholine, and Their Blockers on the Activity of of Cortical Neurons in Goal-Directed Behavior - V. V. Andrianov 1
Influence of Dilantin on the Reactions of Neurons of the Visual Cortex and the Behavior of Rabbits during Learning - G. I. Shul'gina 7
Long-Term Posttetantic Changes in the Reaction of Neighboring Neurons in Microsegments of the Cat Motor Cortex - I. G. Sil'kis, S. Sh. Rapoport, and N. V. Veber 15
Dynamics of the Reactivity of Cortical Neurons to the Repeating Isolated Action of L-Glutamate and Acetylcholine - P. A. Gusev 25
Spontaneous Potentiation of Focal Potentials of the CA_1 Field in Long-Surviving Hippocampal Slices of the Rat in the Absence of Electrical Stimulation - V. A. Popov 33
Basal and Luliberin-Stimulated Secretion of Gonadotropins in Ovariectomized Rat Females with Streptozotocin-Induced Diabetes - V. N. Babichev, E. I. Adamskaya, and T. A. Peryushkova 42
Analysis of Hypothalamohypophyseogonadal Interrelationships in Female Rats in Experimentally-Induced Diabetes - V. N. Babichev, E. I. Adamskaya, and T. A. Peryshkova 46
Reflection of Internal and External Determinants of Behavior in the Neuronal Activity of the Neostriatum of Monkeys - A. A. Orlov, B. F. Tolkunov, S. V. Afanas'ev, and I. F. Kalmykov 52
Influence of the Blockade of D_2 Dopamine Receptors of the Cat Neostriatum on the Baseline Activity and Saccadic Eye Movement-Associated Reactions of Neurons of the Reticular Portion of the Substantia Nigra - M. Ya. Voloshin, E. P. Lukhanina, and B. P. Kolomiets 58
Structure of Neuronal Activity of the Caudate Nucleus of Monkeys during Decision-Making and the Realization of the Motor Program in Different Variants of a Delayed Spatial Choice Task - V. T. Shuvaev and V. I. Shefer 63
Afferent and Efferent Mechanisms of the Intensification of Neostriatal Cholinergic Activity - K. B. Shapovalova 71
Disturbances in Cognitive Activity and Its Neuropharmacological Correction in Structure-Functional Insufficiency of the Head of the Caudate Nucleus in Cats - E. I. Mukhin and Yu. K. Mukhina 81
Role of Dopaminoreactive Systems of the Cortex and the Neostriatum in the Organization of Situational Conditioned Reflexes - N. L. Voilokova 86

Volume 25, Number 2, March-April, 1995

Magnetic Stimulation in the Diagnosis of Diseases of Central and Peripheral Nervous System - B. M. Gekht, G. G. Kharabadze, and M. V. Novosadova 93
Receptor Binding of Glutamate in the Striatum of Rats Differing in Learning Capacity - I. V. Karpova, A. I. Gorodinskii, N. F. Suvorov, and S. A. Dambinova 98

Engl.

Neurophysiological Investigations of the Features of the State and Physiological Activity of Some Structures of the Striopallidum and Thalamus in Various Forms of Parkinsonism - V. A. Ilyukhina, N. Yu. Kozhushko, and V. B. Bokarius 104
Characteristics of the Influences of the Centrum Medianum of the Thalamus on the Neuronal Activity of the Caudate Nucleus - A. V. Mikhailov 111
Neurochemical Characteristics of the Rat Neostriatum and Motor Cortex after the Development of a Unilateral Manipulatory Reflex - I. A. Zhuravin, N. N. Nalivaeva, S. A. Plesneva, N. M. Dubrovskaya, U. B. Chekulaeva, and B. I. Klement'ev 117
Reversible Blockade, Induced by the Neurotoxin MPTP, of Corticofugal Impulse Activity to Neurons of the Caudate Nucleus in Cats - N. N. Oleshko 122
Striohypothalamic Functional Connections in Pharmacologically Induced Catalepsy in Wistar Rats - G. O. Oganesyan, E. S. Titkov, and I. G. Karmanova 125
Participation of the Cholinergic System of the Dorsal and Ventral Striatum in the Regulation of Various Forms of Defense Behavior - E. V. Pominova and K. B. Shapovalova 128
Analysis of the Caudatoventrotegmental Influences during the Realization of the Motor Alimentary Conditioned Reflexes - Yu. M. Dryagin 130
Quantitative Ultrastructural Characteristics of Gabaergic Synaptic Terminals on Neurons of the Reticular Portion of the Substantia Nigra - V. K. Berezovskii, L. F. Burchinskaya, M. Ya. Voloshin, and V. A. Maiskii 133
Interdependance of the Level of the Steady Potential of the Brain and Visual Evoked Potentials in Human Aging: The Norm and Alzheimer's Disease - V. F. Fokin and N. V. Ponomareva 136
Electroencephalographic Correlates of Neurological Disturbances at Remote Periods of the Effect of Ionizing Radiation (Sequelae of the Chernobyl' NPP accident) - L. A. Zhavoronkova, N. B. Kholodova, G. A. Zubovskii, Yu. N. Smirnov, Yu. M. Koptelov, and N. I. Ryzhov 142

PHYSIOLOGY OF ANIMAL BEHAVIOR

Study by Nontraditional Analytic Methods of Features of Cortical Potentials, Taking High-Frequency Components into Account, in Dogs during Instrumental Learning - V. N. Dumenko and M. K. Kozlov 150
Monoaminergic Control by Amygdalar Nuclei of the Reinforcing Action of Conditional Stimuli - É. M. Melikov and E. O. Bairamova 158
Significance of the Interstimulus Time Interval in Repeating Combined Presentations of L-Glutamate and Acetylcholine for Change in the Reactivity of Cortical Neurons - P. A. Gusev and A. A. Myasnikov 164
Behavior of Rats During Chronic Activation and Blockade of the Neostriatal Opiate System - A. F. Yakimovskii 171
Participation of Cardioactive Peptides in Habituation and Sensitization of the Synaptic Input of Command Neurons of Snail Defense Behavior - N. I. Bravarenko 178
Influence of Female Sex Steriods on the Capacity of Splenocytes to Form an Adoptive Immune Response. Role of Prostaglandin F_{2a} in the Mechanisms of Hormonal Immunoregulation - S. V. Shirshev, Yu. I. Shilov, and N. N. Kevorkov 184

Volume 25, Number 3, May-June, 1995

Participation of the Anterior Suprasylvian Cortex of the Cat in the Preparation of the Paw Extension Reaction - V. I. Maiorov 189

Engl.

Interneuronal Functional Associations in the Sensorimotor Cortex of Dogs - É. E. Dolbakyan, T. A. Tarakanova, and M. A. Fadeeva 196
Long-Term Sensitization in the Common Snail: Electrophysiological Correlates in the Defense Behavior Command Neurons - Kh. L. Gainutdinov and N. A. Beregovoi 207
Activity of Neurons of the Cat Motor Cortex during Differentiation between Reactions of Right and Left Paw Placement on a Support Developed in Response to Stimulation of the Parietal Cortex of the Different Hemispheres - V. I. Maiorov and B. V. Chernyshev 215
Role of Kynurenines in the Regulation of the Honeybee's Memory Process - N. G. Lopatina, E. G. Chesnokova, V. N. Sezontenko, and V. V. Ponomarenko 225
Investigation of the Stages of the Mental Rotation of Complex Figures with the Intracortical Interaction Mapping Technique - A. R. Nikolaev 228
Characteristics of the Chemical Sensitivity of Cerebral Cortical Neurons at the Stages of Food-Procuring Behavior of Cats as a Function of the Quality of Reinforcement - V. V. Andrianov 234
Motivational Support of Complex Behavioral Reactions in Rats - N. P. Kurzina, G. P. Dem'yanenko, and A. S. Batuev 240
Neurotransmitter Basis of Mollusc Behavior: Control of Choice between the Orienting and the Defense Response to the Presentation of an Unfamiliar Object - V. E. D'yakonova and D. A. Sakharov 247
Physiological Problems of Biofeedback Control of the Pulse Rate - Yu. A. Sidorov and N. N. Vasil'evskii 252
Emotional Stress and Extracardiac Regulation - L. S. Ul'yaninskii 257
Combinations of Methods for Monitoring the Microcirculation of the Brain - Yu. E. Moskalenko, C. Rovainen, T. A. Woolsey, J. Dowling, D. Liu, and V. N. Semernia 266

Volume 25, Number 4, July-August, 1995

Structural Organization of the Synaptic Connections of the Spinal Cord Motor Neurons of Mammals - M. V. Motorina 273
Influence of Damage of the Suprachiasmatic Nuclei of the Hypothalamus of Rats on the Dynamics of Short-Period Fluctuations of Normal and Abnormal Behavior - É. B. Arushanyan and A. V. Popov 290
Influence of Perfusates of Tetanized Donor Slices on the Induction of Long-Term Potentiation in Recipient Slices - A. A. Mokrushin and I. V. Karpova 296
Horizontal Optokinetic Nystagmus in the Pigeon during Static Tilts in the Frontal Plane - E. G. Zolotilina, S. V. Eremina, and I. V. Orlov 300
Influence of Emotional-Algic Stress on the Activity of Carboxypeptidase H – An Enzyme Involved in Processing Rat Brain Neuropetides - M. T. Gengin and A. N. Vernigora 307
Influence of the Thyroid Status of the Organism in the Realization of the Adaptational Effect of Cold - A. P. Bozhko and I. V. Gorodetskaya 311
Spatial, Bioelectrical, and Neurochemical Characteristics of the Early Afferent Reaction of the Caudate Nucleus to an Acoustic Signal - G. A. Khasabov, I. I. Makarova, and S. P. Zadorozhnyi 319
Plastic Reorganizations of the Receptive Fields of Neurons of the Auditory Cortex and the Medial Geniculate Body Induced by Microstimulation of the Auditory Cortex - I. G. Sil'kis and S. Sh. Rapoport 322

Engl.

Influence of Small Doses of Dehydroepiandrosterone on the Inception of the Hormonal Function of Testes of Sexually Immature Monkeys - N. P. Goncharov and V. Yu. Butnev 340

Volume 25, Number 5, September-October, 1995

Role of Hormonal-Cytokine Interactions in the Formation of the Humoral Immune Response - S. V. Shirshev 345
Neurophysiologic Correlates of the Decision-Making Processes in the Cerebral Cortex of Monkeys during Visual Recognition - E. N. Dudkin, V. K. Kruchinin, and I. V. Chueva 348
Circadian Rhythm of Fluctuations in the Level of Gonadoliberin in the Hypothalamus of Rats and the Influence on its of Various Xenobiotics - M. G. Stepanova 357
Influence of Leukotrienes B_4 and C_4, 12-Hydroxyeicosatetraenoic Acid, and Erythro Epimers of Hepoxilin B_3, on the Plasticity of Cholinoreceptors of Neurons of the Common Snail - A. S. Pivovarov 361
Genetic Features of the Spatial Organization of the Human Cerebral Cortex - N. E. Sviderskaya and T. A. Korol'kova 370
Topography of Afferent and Efferent Flows in the Mechanisms of Auditory Selective Attention - V. I. Shostak, S. A. Lytaev, and L. V. Golubeva 378
Influence of Neuropepties on the Processes of Higher Nervous Activity in Primates. The Action of Cyclic Analogs of Enkephalins on the Behavior of the Lower Monkeys - V. L. Silakov, V. S. Nikitin, L. A. Moiseeva, S. S. Losev, P. D. Perepelkin, and I. V. Zhdanova 386
Varied Influence of Damage to the Motor Cortex on Precision Avoidance and Escape Reactions in Dogs - A. G. Frolov and V. N. Mats 393
Dynamic Shifts in the Parameters of the Traditional Frequency Range of the EEG during Learning in Dogs - V. N. Dumenko 403
Influence of Dilantin on the Reactions of Neurons of the Sensorimotor Cortex and Hippocampus during Learning - G. I. Shul'gina 413
An Investigation of Hippocampal Theta Rhythm of Rats as a Nonlinear Dynamic Process - I. R. Rezvova, A. A. Frolov, and V. A. Markevich 419
Food-Procuring Behavior of Rats under the Conditions of Chronic Activation and Blockade of the Neostriatal Dopaminergic System - A. F. Yakimovskii and E. V. Filatova 427

Volume 25, Number 6, November-December, 1995

Structural Basis of the Interaction of the Limbic and Motor Systems in the Striopallidum - A. I. Gorbachevskaya 433
Oxytocinergic Neurosecretory System in Genetically Selected Rats Differing in Emotionality. A Morphometric Investigation - D. A. Zhukov and E. V. Chernigovskaya 438
Spatial-Temporal Organization of the Functions of Cortical Neurons in a Conditioned Reflex to Time - A. V. Bogdanov and A. G. Galashina 442
Modulation of Septal Influences on Hippocampal Neurons by Cholinergic Substances - O. S. Vinogradova, E. S. Brazhnik, V. S. Stafekhina, and V. F. Kichigina 453
Excitatory Interactions in Neuronal Networks which Include Cells of the Auditory Cortex and the Medial Geniculate Body - I. G. Sil'kis 462

Plasticity of Cholinoreceptors of Neurons of the Common Snail after Effects on Inositol-1,4,5-triphosphate- and Ca^{2+}-Dependant Mobilization of Stored Ca^{2+} and the Level of Phosphatidic Acid - A. S. Pivovarov 474
The Influence of an Inhibitor of Lipoxygenases on the Modulation of the Plasticity of Cholinoreceptors by 15-Hete - A. S. Pivovarov and W. Egido-Villareal 483
Long-Term Ongoing Reorganizations of the Processes of Analysis of Kinesthetic Afferentation at the Level of Cat Motor Cortex Neurons after Damage to the Ventrolateral Nucleus of the Thalamus - B. M. Sidorov 488
Synaptic Proteins of the Temporal Associative Area of the Neocortex of Cats (Field Ep) with Normal and Reduced Cognitive Capacities - E. I. Zakharova and E. I. Mukhin 495
The Role of the Activation of the Intralaminar Nuclei of the Thalamus in Regulating the Participation of the Neostriatal Cholinergic System in the Differentiation of Acoustic Signals in Dogs - K. B. Shapalova, E. V. Pominova, and T. A. Dyubkacheva 504
Characteristics of the Development of Motoric-alimentary Conditioned Reflexes in Dogs with Creation of a Hunger Motivational Dominant - L. P. Rudenko and R. A. Pavlygina 508
The Influence of Serotonin on the Speed of Plastic Processes in the Hippocampus - M. Yu. Antipina, I. V. Kudryashova, A. A. Folomkina, and R. I. Kruglikov 511
Potentiating Effect of Vasopressin Is Not Blocked by Ketamine - I. E. Kudryashov 514
Synchronization and Cooperative Interaction in Brain Activity - R. G. Kozhedub 517
